

# Avoidance of Underground Apparatus, Use of RD8000

---

---

## EXPECTATIONS

This course is designed for delegates that use an RD8000 and T3/T10 transmitter to survey excavation activities to identify buried services.

At the end of this course, people should:

- Understand their legal responsibilities and safe system of work requirements
- Adopt safe digging practice around underground apparatus
- Identify common utility colours and materials
- Operate and use an RD8000 receiver and transmitter

## THE 2020 WAY

2020 Safety Solutions Ltd take a different approach to most training providers. Our courses are designed by educational experts as well as subject specialists.

Every course is based upon engagement, interaction and enjoyment as well as personal development.

It's training, just done differently.
